linkedin.com/in/sadhvi-sharma-5789a6249 Calgary, Alberta (MT)

Permanent Resident — no sponsorship required · Available immediately · Remote across Canada, open to relocation

Five years in cloud infrastructure and telecom, including **2.5 years running 5G core networks at Nokia against a 99.9% SLA** for carriers including Bell Canada. I build infrastructure the way that job taught me to: **every guard I ship is removed on purpose in CI, and the build fails if the tests still pass without it**. 26 public repositories, every one green.

EXPERIENCE

AI Hardware & Technology Specialist

Oct 2025 – present

Meta, via Influence Marketing · Calgary

- Technical enablement on Meta AI products and XR hardware; training delivered to **50+ retail staff**. Infrastructure work below built outside working hours.

Solution Engineer, Cloud Core Network

Dec 2022 – Jul 2025

Nokia · Delhi

- Operated **5G core network functions** — AMF, SMF, UPF, NRF — as containerised workloads on Kubernetes and OpenStack in carrier production, against a **99.9% SLA**, for Bell Canada, T-Mobile US and Orange.
- Delivered a wave-based multi-site **4G→5G migration with zero subscriber downtime**. Nokia appreciation award.
- Production on-call with structured root cause analysis; zero-downtime rolling upgrades as a contractual requirement.

RF & Systems Engineer

2018 – 2020

AA Electro Magnetic Test Labs · India

SELECTED ENGINEERING – ALL PUBLIC, ALL GREEN IN CI

terraform-guard-mcp · MCP · Python · Terraform

An MCP server that reads a Terraform plan and **refuses to bless a dangerous one** — the verdict is a Python comparison, so no wording in the plan argues it down. **34 tests; all three guards removed on purpose in CI**. Found and fixed a prompt-injection hole in my own tool two hours after publishing it.

eks-ecommerce-microservices · Terraform · Helm · EKS

12 workloads, 8 microservices in 5 languages, 2 AZs. **CI writes a cart key, deletes the Redis pod, and asserts the key came back** — the persistence claim is tested, not stated.

aws-multi-account-governance · Terraform · Organizations

6 Service Control Policies, permission boundaries, **44 tests**. Five SCPs attach at the **root**, because a guardrail attached per-OU is one a new OU silently skips. Canadian data residency enforced as a **Deny**, mapped to PIPEDA, BC FIPPA and OSFI B-13.

aws-ec2-read-only-agent · Python · boto3 · Claude tool use

Read-only enforced by a **Python allowlist on botocore's request hook**, so a persuaded model still cannot call a mutating API. **36 tests**, none needing credentials.

sre-incident-practice · bedrock-rag-app · gitops-argocd-kubernetes

Real postmortems with open action items left open · RAG on Bedrock with Titan V2 and pgvector, grounded so it reports missing context · GitOps where **CI breaks production on purpose and fails unless Argo CD heals it**.

TECHNICAL

Cloud — AWS (EKS, ECS Fargate, Lambda, VPC, Transit Gateway, S3, RDS/Aurora, DynamoDB, IAM, Organizations, KMS, CloudWatch, Bedrock, SageMaker) · Azure (Container Apps, AKS, ACR, Entra ID, Key Vault, Log Analytics)

IaC — Terraform · CloudFormation StackSets · Bicep · Helm · Kustomize

Containers — Docker · Kubernetes · Argo CD · GitOps

CI/CD — GitHub Actions · Azure DevOps · OIDC federation (no stored credentials)

Security — OPA/Rego · Checkov · Trivy · SCPs · least-privilege IAM · SOC 2, PCI DSS, PIPEDA control mapping

SRE — Prometheus · Grafana · SLOs and error budgets · blameless postmortems · production on-call

AI — Bedrock · MCP · AgentCore · RAG · pgvector · LLM evaluation · prompt-injection testing

Languages — Python (boto3, FastAPI, Flask) · Bash · HCL · SQL

EDUCATION

M.Tech, Electronics & Communication Engineering — University of Delhi. Full merit scholarship.

B.Tech — Shri Mata Vaishno Devi University.

CERTIFICATION

Microsoft Azure Fundamentals (AZ-900).
AWS Solutions Architect Associate — sitting September 2026.

LEADERSHIP & COMMUNICATION

Area Director, Toastmasters International (District 42) — accountable for four to six clubs, their membership and results, with no authority over any of them. Twice-yearly club visits with written reports, Area Council meetings, area contests.

Second place, Division — International Speech Contest. Won at club and area level first.

Open source — aquasecurity/trivy-checks #602, open pull request allowing TLS 1.3 in a policy that rejected it.
